### The Future of Coney Island in my Eyes

My vision of Coney Island in the future is for everyone to live in an environment where there is peace and they can appreciate where they live. Coney Island will be a wonderful little area in my vision. There will be less littering and people will keep the area in good condition. In my vision, I see that everyone who comes to Coney Island will see it was a great benefit for him or her. I see in my mind, that Coney Island won't have any crime because in my vision everyone will watch out for himself or herself. Care for the beach will come from the people who are surrounding it.

My dream is for people around Coney Island to live in great peace and always feel like their community is a family. I hope that in the future people will be in peace and in a friendly environment where they can feel comfortable and have a great time. My vision is also to see a smile on the faces of the people who come to Coney Island because this means to me that the environment that I live in today has become a better place than I have expected.

My vision of Coney Island is for young children today, to look back in 20 years and see a big difference from the Coney Island before their eyes. They can tell the little ones around them about how lucky they are to live in a community where there are people who love and care for them and tell them what a difference was made from when they were a child.

My vision for the future Coney Island will still have the beautiful landmarks up such as The Parachute Jump, the Cyclone, Childs Restaurant and much more. My other dream is when I am elderly I can sit down and cry with joy and happiness of how Coney Island, my beloved community is a famous town and people and children can brag about how they live in the best community

in the state of New York. I am hopeful that my dreams and wishes of Coney Island come true and everyone will realize that Coney Island will never succeed in the future. The future is in our hand and it will change if you have the courage to stand up for yourself and everyone else to make a difference for everyone who is with you and is coming to you. This is my dream and my visions of what Coney Island looks like in the future. I hope everyone will experience a great time in Coney Island just like I do now. The people of Coney Island will one day see my hopes, dreams, and visions for Coney Island.
